About Me

I am passionate about the way people use technology. I love to interact with the users to understand their expectations and unpleasant experiences from the product, and use their insights to create simple and beautiful interfaces that have a high degree of usability.

CBSE - All India

May 2005

80%

Professional Work Experience

BT Business App - Accolite Software India Pvt. Ltd.

UX/UI Designer

[July 2016 - Present]

A mobile application providing all business services to BT Group PLC customers.

My goal was to understand and analyse customer needs; interact with them to create a good user experience. I have designed application flow, created wireframes and mock-ups, reviewed and guided the developers to get the expected output and design.

Apple App Store: <https://goo.gl/m7EY5Z>

Google Play Store: <https://goo.gl/1KkVrL>

UKB SaaS - Accolite Software India Pvt. Ltd.

Software Engineer - Intern

[January 2016 - July 2016]

Mobile products and related services module of UKB SaaS project owned by BT Group PLC.

I have coded fully functional application modules; using C#, AngularJS and ASP MVC architecture based on .NET Technology. I have written unit test cases on JasmineJS by configuring KarmaJS framework. I learned organisation's process of fulfilling customer needs and business objectives.

Voluntary Work Experience

Placement Cell Portal - NIT Karnataka, Surathkal

Web Application Developer

[December 2014 - December 2015]

Official web portal for students and companies enrolled for campus recruitment.

While pursuing master degree at NIT Karnataka, I served my college as Web Developer and Database Administrator of placement.nitk.ac.in
