Interaction Design	Comparative Analysis

- **Programming**

JavaScript (ES6)	ThreeJS
HTML5	GSAP
CSS3	VueJS
ReactJS	

- **Leadership**

Project Planning	UX Strategy & Planning
Team Coordination	Training & Mentorship

Summary

Product designer with 4+ years of user-centric design experience. I enjoy interacting with people, understand their expectations and displeasing experiences from the products, and use their insights to create simple and intuitive interfaces that have a high degree of usability. Interested in immersive design and extended reality-based emerging technologies.

Experience

o9 Solutions   Bengaluru, IN
Senior Product Designer   [MAY, 2018 - *Present*]

- Designed and prototyped, multiple widgets and features for web, mobile, and desktop applications varying from small, one-week prototypes that explored specific interactions to large-scale, multi-month projects targeted for the launch.

- Designed intuitive, interactive, and smart analytical visual interface for the AI-based smart supply-chain platform offering features like:

  Natural Language Search, Rich Data Visualization, Real-Time Collaboration, Connected Excel, Mobile Experience, Integrated Email, Geo Map & Network, Online Meeting and Presentation, and Favorite Management.

Accolite Software   Bengaluru, IN
UX Designer   [JUL, 2016 - MAR, 2018]

Worked for various clients at client locations. Analyzed, prototyped, and delivered the designs as per client's design requirements.

Standard Chartered Banking App   [NOV, 2017 - MAR, 2018]

A mobile app for managing finances anytime anywhere.

Designed UI to offer UPI based transactions to facilitate safe, easy & instant digital payments.

Google Play Store: *https://cutt.ly/ryNkoPX*

FedEx FRMS iPad App   [SEP 2017 - NOV 2017]

An iPad app for FedEx's Pilot Fatigue Management.

Analyzed existing web application and redesigned the workflow for the app.

Designed high-fidelity clickable prototypes, UI design assets distribution, application flow, animations, and design guide for the developers.

BT Business App   [JUL 2016 - OCT 2017]

A business service mobile app for users offering with features to view bills, check accounts, test broadband speed, track orders, and faults.

User-research, analysis, and interpretation of customer needs, to create a pleasant user experience. Designed application flow, created wireframes and high- fidelity mock-ups.
